St. Louis Family Theatre Series

Celebrating its 28th year in the community, this program introduces more than 20,000 St. Louis area school children and their families to live theatre annually. Over the years, the St. Louis Family Theatre Series' (SLFTS) performances have entertained almost a half million young people. The SLFTS began in 1986 as a Junior League of St. Louis priority group, then called "Audience of the Arts."

JLSL members working with SLFTS have several unique training opportunities, including serving as a docent in the classroom or as an usher at the theatre. Many local schools plan field trips to see performances each year. In preparation for the "theatre experience," a docent visits each classroom and talks about what to expect at the theatre and during the performance. The children can ask questions, since for many of them this is the first time they will experience "live theatre." As an usher, JLSL members assist the young theatre-goers from the minute they walk in the door, ensuring that their theatrical experience is enjoyable and memorable.

Kids in the Kitchen

Kids in the Kitchen (KITK) is a national program established by the Association of Junior Leagues International (AJLI) to empower youth to make healthy lifestyle choices and help reverse the growth of childhood obesity and its associated health issues. It provides a forum for educational information and demonstrations, such as the preparation of nutritious meals. It also increases students' awareness of the need for healthy habits. KITK, project of the Provisional Class, was held this year at Grace Hill Settlement House on March 19.

Issue Based Community Impact

In 2014, Junior League of St. Louis began the process of evaluating our community programs and aimed to implement Issue-based community impact (IBCI). Issue-based community impact is a way to shape an organization's civic engagement and helps identify what the League's role and positioning in the community will be. IBCI results in bigger, deeper, longer-term and more enduring works than a traditional Junior League's project-based efforts. JLSL's Board of Governance also formed a committee called the Community Programs Board Committee to help implement IBCI principles.

JLSL members attended panel discussions and a town hall meeting to learn more about three issues identified by the Community Programs Board Committee: infant mortality, financial capability and women's issues. At the March General Membership Meetings, JLSL members selected infant mortality as the issue it will wrap itself around through May 31, 2021.
